Professional Profile

Web Developer with more than two years of experience in Front-end and Back-end. I am very passionate about programming. Currently, I am studying Computer Science at university, but I also enjoy learning by myself to stay updated with new technologies. I am looking for a position to use my Full-Stack skills, create web applications, and grow professionally to become a Software Architect in the future.

Work Experience

Full Stack Web Developer Freelance | *February 2025 – Present*

- Developing full-stack web applications using **HTML, CSS, JS, Angular, PostgreSQL, and PHP (Laravel)**.

- Building custom websites for different clients like dental clinics and local stores.

Front-end Web Developer ABSTRACT FLEx | *January 2024 – February 2025*

- Worked on advanced web layouts with **HTML5 and CSS3** and front-end development with **TypeScript and Angular**.

- Created static pages using **Astro**, using **React** for interactive parts.

- Used **Firebase Auth** for user login and **Firebase Storage** for product information.

- *Project example:* I developed the front-end for nutribacter.com.

Tech Stack

- **Front-end:** HTML5, CSS3, Responsive Design, Bootstrap, Tailwind CSS, JavaScript, jQuery, Angular 16+, React 17+, Astro.

- **Back-end:** PHP, Laravel, Firebase.
